WHO WE ARE

paxUnited is a 501(c)3 nonprofit prevention organization committed to helping protect youth by providing comprehensive violence-reduction programs that incorporate conflict resolution and mediation training services for schools, parents and community-based organizations.

The core program is Peers Making Peace®, a conflict mediation program for youth, designed to be implemented by trained student mediators in elementary, middle and high schools and facilitated and supervised by teachers, counselors, administrators and/or other pupil support staff.

THE BULLY BATTLE STOPS NOW!
Training Overview:

For campuses who wish to educate their faculty and student body on the importance of bullying prevention, which is required by law in many states.

- No Room for Bullies is an innovative bullying presentation with a plan that works. It can be used for a variety of events, including staff development seminars, teacher in-service trainings and student presentations.

- Through education, understanding and commitment we can resolve this problem.

You will understand:

- The definitions of various types of bullying
- Why students bully and get bullied
- The most likely locations to find bullying
- How to identify both the bully and the bullied
- What you can do to help

The Facts

With the prevalence of unlimited access and social media, the bullied are no longer safe from their school tormenters at home. Cyberbullying is defined as harassment, bullying or abuse through an electronic device.

- Cyberbullying victims were almost twice as likely to have attempted suicide compared to youth who had not experienced cyberbullying

- Cyberbullying victims and offenders reported significantly lower self-esteem than youth who hadn’t experienced cyberbullying

Statistics are from studies conducted by the Cyberbullying Research Center
